PROFESSIONAL SUMMARY

Full-stack product engineer with 5+ years of experience building customer-facing web platforms, commerce systems, CMS-backed sites, payment workflows, and education workflow tools. Strong in Next.js, React, TypeScript, Ruby on Rails, PostgreSQL, Redis, Sanity, Strapi, Docker, CI/CD, API design, and automated testing. Experienced translating operational and customer requirements into reliable production systems across e-commerce, ed-tech, publishing, real estate, and service-business domains.

TECHNICAL CORE

Languages: TypeScript, JavaScript, Ruby, Python, SQL, HTML, CSS

Frontend: React, Next.js, Tailwind CSS, component-based architecture, responsive UI, SEO metadata

Backend: Ruby on Rails, FastAPI, Node.js, REST APIs, GraphQL, webhooks, background jobs, authentication, authorization

Data: PostgreSQL, Redis, Active Record, data modeling, SQL migrations, audit/event records

CMS, Commerce & Payments: Sanity, Strapi, Medusa, Helcim, Resend, Schoology fulfillment, product catalogs, checkout flows

DevOps, Testing & Security: Docker, Nginx, Vercel, Railway, GitHub Actions, CI/CD, Playwright, RSpec, RSwag, Zod, RBAC, Argon2, TOTP

EXPERIENCE

Senior Software Engineer - *Aira Publishing* | June 2024 - Present

- Built and maintained a live education publishing marketing and admin platform using Next.js, React, TypeScript, Tailwind CSS, Sanity, PostgreSQL, Helcim, Resend, Playwright, and Vercel.
- Implemented payment and fulfillment workflows with Helcim, Schoology fulfillment, transactional email, server-side validation, and internal admin tooling.
- Built secure admin workflows using Argon2, TOTP, session controls, validation, audit-oriented patterns, and restricted operational access.
- Supported 150+ products and 5 internal admin users across marketing, product, payment, fulfillment, and administrative workflows.
- Reduced platform and tooling costs by 67% by replacing Shopify, HubSpot CRM, and Mailchimp workflows with a custom Next.js, Sanity, PostgreSQL, Helcim, Resend, and admin operations stack.

Software Engineer - *Scholarly Elite Tutoring* | June 2020 - June 2024

- Built Rails API features for a curriculum-management platform with Admin/Creator workflows, DeviseTokenAuth authentication, Pundit authorization, Closure Tree curriculum hierarchies, and ActiveStorage attachments.
- Designed and shipped API-driven content workflows that automated personalized tutoring packet generation and reduced document assembly from 3-5 hours to minutes.
- Implemented asynchronous curriculum import/export workflows using Sidekiq, PDF merging, ZIP generation, progress tracking, and background job orchestration.
- Refactored monolithic controller logic into testable service layers with versioned REST APIs, improving maintainability, code review quality, and onboarding speed.
- Supported API documentation and automated test coverage with RSpec/RSwag across authentication, curriculum, creator, identity, and download endpoints.

Business Development Manager - *Scholarly Elite Tutoring* | April 2018 - June 2024

- Managed education-services growth workflows across cold outreach, inbound calls, consultations, demos, proposals, onboarding, retention, and partnership follow-up.
- Used HubSpot Sales Hub, Microsoft 365, Mailchimp, Excel, Google Sheets, Google Calendar, Slack, Notion, and Discord to support lead management, client communication, and operational coordination.
- Connected customer needs, sales feedback, and operational pain points with internal software workflow improvements across tutoring, curriculum, and admin processes.
- Developed relationships across school boards, local businesses, public institutions, provincial/federal program channels, and tax-credit-related opportunities.

SELECTED PROJECTS

Drenova Group - Real Estate Platform

- Built a production-quality real-estate platform with Next.js, Sanity CMS, AMPRE/MLS listing integration, Redis caching, Resend email workflows, compliance-aware address suppression, audit logging, and Vercel deployment.

Lash Her - Booking & Commerce Platform

- Built a full-stack Next.js/Sanity booking and commerce platform integrating CMS-managed pages, Google Calendar booking, HelcimPay checkout, PostgreSQL order storage, Redis-backed idempotency, Resend confirmations, and Playwright tests.

EDUCATION

University of Toronto - Honours BSc - Mathematics, Statistics, Economics | 2022
